DEDICATION

MISS MILDRED E. FROSTHOLM

TO Mildred E. Frostholm, who has been most helpful and cooperative as a class adviser, for her untiring efforts and sincere friendship, we gratefully dedicate the *Flicker* of 1949.

Prologue....

DURING our flight with Gulliver through the halls of Gloucester High School we shall observe the academic and extra-curricular branches of the school. Between these pages are recorded the scholastic lives of some eleven hundred people: their work, their fun and their achievements.

Our four years of high school have been profitable, for we have gained in knowledge, poise, and friends. A class that entered high school while the United States was still at war, we shall graduate into a world at peace, fully prepared for life by our past four years in Gloucester High School under the capable guidance of our principal and faculty.

MR. LESLIE O. JOHNSON
Principal

To the members of the Class of 1949

The day to which you looked forward with so much anticipation in September 1945 is nearly here, and this Flicker is a part of your final high school program. It has been a privilege and a pleasure to have you in the Gloucester High School during these four years. Unfortunately every member of the class who started in September 1945 is not here. You have several new members in the class who have come to us from outside the city of Gloucester. It has been an interesting experience to watch you learn to get along together, working for yourselves and your parents under the leadership of the school. We have striven to train you to be independent, to be capable, and we hope, to be successful. We know we have not given you every thing that you wish, but through the excellent facilities furnished by our city you have had an opportunity to profit as much as you desired in your high school.

As you study this *Flicker* today, and in the years to come, I hope you will reflect upon many incidents that made you happy and which help you to realize the opportunities that Gloucester High School offered you.

If we at the high school have been successful in teaching you to work with others representing various faiths, creeds, and races; if we have made you believe that America *is* the land of opportunity for those who wish to take advantage of it, that you must recognize the rights of others, and that nothing should be done in your time and generation to break down the wonderful American tradition, then *we* of the faculty can be sincerely happy.

Best of luck to each and every one of you and a cordial invitation to visit your Alma Mater whenever the opportunity presents itself.

Hup-2-3-4! Gulliver from his perch atop the big bass drum can see the R. O. T. C. complete with Band and Girls' Drill Team swing into view. Under the capable guidance of the major and his staff, this regiment and its escort of girls has presented to the public spectacular drill exhibitions, band concerts, and parties. The more practical aspects are concerned with developing physical and mental coordination and good sportsmanship in competition through individual drilling and intermural games. An all round organization, the ROTC has had a great deal to do with developing personality and character and thus deserves a worthwhile position in the school.

Pricking his ears at the sound of rousing cheers led by the gaily clad cheer leaders, Gulliver now finds himself surrounded by all sorts of people: football, basketball, hockey, volleyball, and baseball players. A successful athletic season has been witnessed this past year, marked by outstanding ability and fine sportsmanship. Our teams have played well and duly deserve high praise from all.

FOOTBALL

Bronco Breaks Into the Clear

GLOUCESTER 21 — REVERE 0

A darkhorse Gloucester eleven opened the 1948 season with a convincing victory over Revere. "Bronco" Sinagra ran wild all afternoon and scored twice. Byard recovered a blocked kick for the third score. A new-comer named Fernando Periera place kicked all three points.

Long Gain by Nicastro

GLOUCESTER 14 — LYNN CLASSICAL 6

In a never-to-be-forgotten game, Gloucester came from behind to astound undefeated Classical. Lynn opened the scoring in the first period but Gloucester retaliated with a long march culminated by a Lucido to O'Neil T. D. pass. Jack Lucido's 91 yard scoring run made the game safe and Periera kicked both conversions.

Sinagra Off Again

GLOUCESTER 14 — NEWBURYPORT 7

This game was settled early as Sinagra went 76 yards on the first play from scrimmage. Minutes later, Jerry O'Neil caught a blocked kick in the air and rambled 38 yards to the winning-counter. A last period enemy score made the game close. Periera continued his perfect performance with two conversions.

Nicastro Loose Against Amesbury

GLOUCESTER 14 — SWAMPSCOTT 12

For four weeks, Fernando Periera had consolidated Gloucester wins with his perfect kicking. This time his magic toe spelled victory for the Fisherman brigade. Nicastro scored first, but the Sculpins retaliated directly after. Lucido's pass to O'Neil gave Gloucester a 14-6 lead, but another enemy T. D. closed the gap once more. Periera's performance earned him the Boston Heralds' "Star of the Week."

GLOUCESTER 7 — MARBLEHEAD 7

Shocked by the loss of star end Jerry O'Neil, Gloucester was overhauled by a determined Marblehead team. Jack Lucido's first period touchdown and Periera's conversion gave Gloucester a lead which it held throughout. The Headers' were not to be denied, however, and after stopping the Rossmen on the one foot line moved the length of the field to score with 20 seconds remaining.

FOOTBALL

BEVERLY 36 — GLOUCESTER 7

After holding Beverly in check for almost two periods, Gloucester fell before the Garden City onslaught in a dismal exhibition. Lucido's 58 yard scoring after catching Garrisi's pass. The roof fell in as a bad break gave Beverly a tie breaking score. In the second half, Ransom and Kessaris ran wild over a disputed Gloucester eleven.

End Run by Lucido

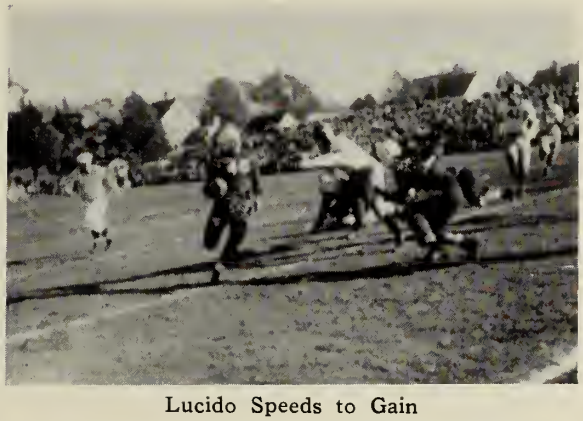
GLOUCESTER 24 — PEADODY 12

Jackie Lucido and Fernando Periero shared the spotlight as Gloucester resumed its winning ways. Lucido passed twice to end, John Souza, for the first two scores and tallied the third himself. Periera kept his perfect record intact with three conversions and a field goal. In the fourth period, Coach Ross cleared the bench as Peabody scored two consolation tallies.

Amesbury Line Stop the "Bronc"

GLOUCESTER 19 — AMESBURY 7

Gloucester overcome a stubborn Amesbury eleven on an early splurge. Jack Lucido opened the scoring, closely followed by Sinagra with a 51 yard jaunt. Lucido's second score clinched things for the Fishermen. The game was regrettable as Fernando missed his first placekicks of the year to ruin his perfect record.



Lucido Speeds to Gain

GLOUCESTER 22 — MELROSE 6

On a wet, sloppy gridiron, Gloucester pushed the Red Raiders about almost at will. After starting things off with a safety, Sinagra bucked over for the one. Lucido's pass to O'Neil gave Gloucester another score. The fleet Lucido sped 27 yards for the final touchdown. This win almost clinched the Class B title.

O'Neil off After Catching Pass

GLOUCESTER 13 — WAKEFIELD 13

Championship hopes went out the window as an underdog Wakefield eleven rose to great heights on Thanksgiving Day. Lucido's 40 yard scoring burst gave Gloucester an early lead, but Wakefield rebounded for two tallies and a 13-6 half time lead. With Gloucester hopes waning Hotchkiss blocked a pass and scored. Periera's kick tied the score. In the final moments, an erroneous ruling cost the Fishermen a touchdown and a Class B title.

BASKETBALL

This year's basketball squad, ably coached by Alfred U. (Gus) Hagstrom has proven itself a bone of contention for all Essex County opponents. The boys have shown real polish and finesse, and have shown a definite improvement over last year's edition. The sparkling performances of Capt. Jerry O'Neil, Tom Aldrich, Bill Twomey, Jack Lucido, Onoranto "Hawk" Galante, the team's brilliant little "sixth starter" Conrad "Bunny" Vitale have provided Gloucester fans with plenty of thrills. The team play this year featured great sharpshooting by Aldrich, Twomey, and Galante, steady defensive work by O'Neil and Vitale, and all around team work. Playing in a league comprised of many dangerous teams, Gloucester's performances have been praiseworthy. Further comfort to G. H. S. fans lies in the fact that only four seniors grace a thirteen-man varsity squad. Of this year's starting five, only Captain O'Neil will be missing come Jamboree time next year. Prospects are surely bright for future years.

Fifteen eventful years have gone by, and there are marks of a modern age on the members of the 1949 class of Gloucester High School. Styles have changed, car designs are different, but there is no mistaking the familiar faces. "Punkie" Olmstead's drawl is just as pronounced, Betty Dolan's freckles are just as noticeable, and Jack Silva, Jr. is just as laconic as ever. What about your other classmates and friends?—Read on.

It is interesting to note that women have invaded nearly every field of occupation. To prove this point one has only to glance at the positions of our old school mates: Adelaide Bragdon, deep-sea diver; Barb A. Baker and Dotty Adams, supersonic test-flight pilots; Olivia Brown and Pat Abbott, psychiatrists; Betty Brennan, alderwoman; and Barb Brown, marriage counselor.

With the abundance of labor saving devices, a new office has been created with R. Kallio and W. Keating as chairmen: Dept. of *"What to Do with the Time Saved."* So far they have not reached any solution. But John Pereen and Joe Lafata have offered their advice: "Sleep." For ambitious businessmen like Jack Jenkins, Art Issacson and Gerald Parady, time is valuable if one is to become a Successful Super Salesman. Thus far there have been no inventions to supplant a well-placed foot in the door and a persuasive smile, says Dave Pistenma. And as far as housewives Shirley Kline, Vickey McCarthy, Jean Parker and Barb Hull are concerned, nothing can replace the traveling salesman. Magazine covers have not changed, either, and are still adorned with beautiful models: Janice Lee, Shirley Jones, Dolores Olson and Nat Killey. Advertising copy is different, however. A sensational idea to have cover boys was introduced by Gil Lumbard and Sarah Evans. As a result, most advertisements feature: Clayt Hubbard, Gil Laurie, Bob Hull, and Gage Hotchkiss. The corner newsstand has disappeared to be replaced by Otto Laupman's ingenious invention, the Newspaper Automat. The company resulting from the product employs on its staff: Liz Lurvey, Gin Larkin, and Lukegard. Ollie Tysver sorts the slugs from the nickels. One of the most popular newspapers is edited by Paul Kenyon. Working for this periodical are many people who have become famous: Mary Viera, for her amusing caricatures; Nancy Webber, for "The Roving Dictaphone," her gossip column; Robert Wilson for his obituary column; Joan Patten for her stinging drama reviews; and Richard Spittle for his sports write-ups. A recent issue featured an article on R. Tarbox and T. Stahre Plastic Company, which had discovered a new type of plastic. So revolutionary was this product that it created entirely new industries. A leading designer, Betty Shaw, has created the "Big Peek." Recently, Candy Viator modeled her latest creation, a shocking-pink plastic dress. The new Television-Phone utilizing this plastic, is not endorsed by the still bashful Harvey twins, Sid and Ruth. Dave Greer, Bob Rodgers and Stan Goodnow have unsuccessfully tried to patent an infallible plastic algebra answer book. Plastics have not invaded the theatre, however. Nancy Dean has scored another success in Pal Morey's play, *"The Apples Were Green."* Bob Geary and Fernando Pereira are the two male leads contending for Nancy's hand.

From the theater we switch to Ruth Gill's pet shop where Mike Frontiero is writing a well-publicized symphony for the Monkey Exhibition at the Guerin and Hooper Zoo. There's John Enos again. Oh! Oh!

M. MacDonald's Television Station is located in the boom town of Gezundheit, Arizona, which grew up as a result of P. Marshall's and Steve Nickas' discovery of a rich leld of pitchblende. Some very famous names are connected with this station: the great comedy team of Larry Collins and Pat Haines; opera star, Sheila Post; blues-singers Vi Banfield, Ann Barret, and Nina Anderson; and the satirical modern dance group with Josie Mione, Mary MacNeil, Bet MacMillan, and Ann Mountain. Bentley's "Bang-it-up-and-leave-it" Band (successor to Spike Jones), is the featured attraction at the moment. His drummer, Dick MacDonald and triangle player, Scott Anderson, really split the atom when they get together.

Next door to the television building is a moon-rocket construction factory, proprietor, Eugene Alves. The first men and women to reach the moon alive, in a rocket designed by themselves, were Bob Anderson, Robert Hodgkins, John Matheson, Carolyn Joyce, Catherine Martin and Vera Mayo. This design was elaborated and improved upon by Jean Marsh and Marilyn Nowe, and the rocket is now being manufactured. A regular full-time colony has been established on the moon, commanded by Major Russell Sullivan. He's really out of this world!

From another building, the Dave Marshall Autobus Company, one notices a stream of

tear-drop shaped cars, 1964 models, designed by Janet Maddix, Ann Harding and Shirley Cressey. Behind the building the cars are tested in a tortuous obstacle course by test-drivers Eugene Belcher, John Barrigan, Richard Riley and Joe Maciel. Above their heads floats a blimp towing a banner urging people to buy Critchett's Crunchy Cornpops; and then a cab of the C. C. C. Helicopter Taxi Service speeds by. The C. C. C. stands for the three partners M. Curtis, E. Courant, and C. Curtis. Looking to the top of the Gezundheit Press Building, (editor-Willa Mack) one can see the news flashed from New Orleans by telecast. Janice Bradstreet and Fred Bishop crowned Queen and King of Mardi Gras!

Fifth National Bank looted. President James Mackey in frenzy! . . . Newest Mary Ellen Mills dress design a sensation! John Matheson voted most valuable player of baseball season! . . . April, Benedetto, and Crowell discover lost Atlantis! . . . Foster discovers oil in East Gloucester, but it belongs to Libby Rust!

There is an underground super-speed railway direct to Gloucester from Arizona built by John Bodoni and Randolph Pereen so that they could quickly return to Gloucester to see their old pals, Ray Connor, principal of Gloucester High School, and Lillian Parsons, office secretary. A new high school had just been erected by the Corliss and Ingersoll Construction Company, the plans of which had been drawn up by Ann Carter and Nancy Newton. The landscaping for the old high school had just been completed by Lois Reed and Shirley Putonen, landscape architects, but the old high school collapsed before it could be enjoyed. There had been a bit of trouble with Lois Wisutskie, head of the English Department, who wanted a study lounge for the students, and Phil Perry, superintendent of schools, who didn't.

Several changes have been made on Main Street since 1949. It has been both lengthened and widened and many new stores have sprung up: Nancy Newton's Dress Shop; Catalini Hardware Company; Hugh Curley, Jeweler; Adrianna's Beauty Salon; and David Mackey, Photographer. Betty Cranton is manager of Woolworth's and 'Bender" Banfield owns a sporting goods store. The "Times" new editor Kay Curley, has enlarged the sheet and added several new columns. In the latest edition one notices several headlines featuring the names of familiar buddies. Barb MacDonald Rescues Drowning Child . . . Lois McComisky Great Success in Latest Film . . . Faye MacInnis Promoted to Captain of Wap's (Women's Air Patrol). Nat McIssac and Joy Alderman collaborated in their spare time to produce a very successful handicraft shop employing new glass yarn and sand cloth. Shirley Lane, Betty Frusteri, Marilyn Duchane, and Alice Holmberg acting as guidance counsellors at the Helicopter School for Little Hellions. Here they are attempting to instruct the progeny of Fred Horne and Donald Gove on courtesy of the air. "This is an essential, a must for every child, as helicopters have almost displaced the family car," says Kathryn Ross. Of course, this is all due to Philip "Brains" Holden's mathematical manipulation of time, rate, and speed. Speaking of speed, Joe Grace, has set the world's helicopter record-around the world upside down. Even Lanesville has reacted to modern times and now sports ice baths, introduced by Marilyn O'Neil and Cliff Arvilla, in place of the outdated "saunas" or Finnish steam baths. There deluxe slim-a-toriums are presided over by Marie Hill, ably assisted by the Misses Bette and Claire DeCoste.

Reading the newspaper that has just arrived we find that Busty Nicastro is just back from Camagolia with his new football finds: Bob Muniz, Favalora, and Gordon Burroughs. Cheerleaders, Claire DeCoste, Barb McGrath, and Nat Friend, and Paige McInnis are also a big help to the team with their radar rooting. We'd better move along, there's Enos looking for us again.

Hopping onto one of the many traveling side-walks moving by, I let myself be carried to the outskirts to town where there is a ski-meet. These skis were invented by Ralph Goulart for skiing without snow. That really takes some manipulating to control. First we see Judy Swanson as she makes a spectacular jump from the pine needle covered ramp far down to the judge's stand where Mary Heckman, Marie Duchane, Richard Ellis, and Christine Gounaris try to judge the skiers fairly. Among the watching crowds are Janice Tognazzi, Novelist; Flo Story, Columnist; and Jacky Stanwood, poet. Then we see Sara Favazza, one of today's greatest women athletes trying her world famous back flip on skis. Some of the less hardy observers have delicately fainted. Felice Spugnardo, Nancy White, Loretta Hietala, Katherine Golden and Janet Dickerson, all prominent leaders in the social world, are among these. Rushing to the rescue of these poor souls are ambulance driver, Stan Whitten, Doctor Harry Simpson and Nurse Dawn Harrigan. Leaving them to

their misery or pleasure, as the case may be, we catch a passing ski-lift and hurry back to Rosalie Frontiero's Inn where John Souza and "Baker" Silva are broadcasting the news of this great ski event to the listening world. Off to one side are Coach "Bronco" Sinagra and sports writer Russ Silveria discussing football tactics with C. Goodrich. Scientist Bill Smith and his secretary Flossy Stevens are vacationing here and also soprano Elaine Tate who is still attempting to reach her high "C".

Among the autograph hounds awaiting the arrival of several stars from Hollywood; Vito Florentino, Barb Elwell, Kenny Dagle, and Marion Frick, from Hollywood, are Ann Favalora, Rosario Giammanco, and Art Davis; names prominent in the business world. As we return to town, we meet the Duwart Twins as they whizz by in perfect coordination all but hitting various protuberances along their way. Jim Frost, Mathematician stands by trying to figure the distance they cover in one second.

Let's get out of here, I see Enos with his white coat on over there!

Many stores in Hollywood feature Billy Armstrong's latest invention "Fashions Fabulous and Frivolous." The stores feature movies of the fashions in their store windows as a result, models Barb Hull, Marge O'Connell, Doris Peterson can be frequently seen tripping along the runway. Back at the studio where the movies are produced, William Ingersoll is in charge with Margaret Perry as his technical advisor. Joe Santos is the head cameraman. A special technicolor effect has been achieved by Catherine Crowley. With the new dresses designed by Nancy Brennan, Robert Riley had to be hired as a film splicer. Luminous flour sacks used by the Robert Rodger's Mills have brightened considerably, farm housewives wardrobes. John Rose, a hired hand, reports that now some of his employers spouses are even prettier than the cows. James McBride is, at present, the millionaire farmer of the west. He has originated ultra-modern dude ranches, with helicopter rides in place of horseback riding. Mary Oliver, Barb Mellow, and Catherine Martin are hostesses at these ranches. Steve Orr has charge of the telecast set which provides evening entertainment for the guests. Madeline and Vita Pallazola did a revival of a cowgirl skit the other night.

Let's leave Enos here and hurry back to where we started, maybe we'll lose him.

Down in Bermuda, The Saroteen Wild Life Pictorial Company is shooting underwater scenes of various tropical fish for the R. Castle Education Films. Manning the pumps are Walter Burbridge and Everett Carrigan while Louise Balbo nervously directs the proceedings. Suddenly a man-eating shark menaces the photographer so over go Adam Catto and Salvatore Crolino to rescue him with their biting knives. The dead shark is hauled aboard by G. Marie Collins and Marjorie Coull with their atomic machine built for just such an emergency. From above Rosie Scola on her "skeeter-raft," a jet propelled lighter-than-air platform, files the memorable incident for future reference on a tape recorder, that will later be sent to the B. J. Baker Laboratories. About a mile away is Ralph Silva fishing from his pleasure yacht with several of his vacationing friends, Elwood Tarbox, Elmer Corujo, and Bill Carrigan.

Oh! oh! Better scoot, There's Enos!

Back in Vanderbilt, North Dakota we find Alice Wilson leading a tour of the city. We shall join it.

Pete Doyle, as head of Earl Garvey's Appliance Company is demonstrating (in a window) to the public Carl Johnson's zipper-glass refrigerator. Aris Demetrios had previously constructed a glass door which was not welcomed by privacy lovers. Secretaries, Jane Dahlmer and Betty Cranton found this idea terrible since they would then be working under the watchful eye of their boss, Santo Mineo, all day long. Along the avenue Carl Johnson is successfully selling orange juice drinks to many eager female customers. You've heard of sunkist oranges—these are Charles Olsen kist! Carl's assistant, Bill LaFond can't squeeze them fast enough. The oranges, that is! Their little stand would be almost demolished by the mob, would it not be for Joan Parker and Marie Duchane, policewomen. Someone is trying to get our attention. Too late—John Enos has caught us. We must congratulate him on his fine work as he zips us into our straightjackets. Goodby all! We're off to the J. Pierce's Happy Sanatorium.

And so we come back to the present where all is calm, peaceful and uneventful. Whoops! there goes Byard into the canal (fully clothed) to retrieve that football which Jerry threw just a bit too far.

Life With Father

Ably directed by their new director Miss Rachel H. Pressey, the Dramatis Personae scored a smash hit with their polished presentation of Howard Lindsay and Russell Crouse's Broadway success, *Life with Father*. The play was centered in the fashionable New York home of Mr. Clarence Day, a prosperous businessman of the 1880's. Mr. Day ably played by junior Gerald Curhan provided innumerable laughs with his frantic attempts to keep his household intact. His wrath is usually borne by Mrs. Day, portrayed by senior Nancy Dean who gave a brilliant performance. Love interest is added by senior John Silva, Jr., in the role of Clarence Day, Jr., and freshman Jeri Klemer who is Mary Skinner, a visitor in the Day home, gave a truly superb performance. The Day's next eldest son, John, played by senior William Armstrong, added to the humor aspect with his ideas and antics. Two younger Days were played by freshmen Fitz Lufkin as Whitney, and eight year old John Lake as Harlan. The maids whose work never pleases Father and who are constantly resigning their positions are junior Raye Norris, senior Marilyn Nowe, and sophomores Louise Peterson and Margaret Ann Morse. The Day's venerable cook, Margaret, was played by freshman Claire Avila. Other cast members were Aunt Cora, Dorothy Bicknell, '50, The Reverend Doctor Lloyd, Leo Dionne, '50, Dr. Humphries, Stanley Goodnow, '49, and Dr. Somers, Lawrence Collins, '49.

The near capacity audience greatly enjoyed the efforts of our aspiring thespians, and their long lasting applause was a fitting tribute to the hard work done by everyone in general and Miss Pressey in particular whose keen wit and coaching ability was fully exercised during the trying hours of rehearsal.

Lest we forget the usual competent work done by the stage crew who, under Mr. Rosen's able direction, made things "ship-shape" for the performance.

LYNN HOSPITAL SCHOOL OF NURSING

Lynn Hospital School of Nursing, accredited both in Massachusetts and New York, offers to young women between the ages of 17 and 35 years, who are interested in nursing, a three-year course of theory and practice.

Applicants for entrance into the School must be high school graduates and must have 16 units of accredited high school work. Eight and one-half of these units must be in the following subjects: Chemistry, Biology, or General Science, United States History, Civics or Problems of Democracy, one year of Mathematics, and four years of English. The seven and one-half units may be in the elective field, but not more than five elective units may be used in the non-academic field. Preference is given those students who are in the upper third of their class academically.

Entrance classes are in February and September. For information applicants are advised to communicate with Dr. Muriel L. Thomas, Director of the Lynn Hospital School of Nursing.

Personalized Portraits

and it's all done with

Lights!

There's magic in lights . . . add a light here, place a spotlight there, and your portrait takes on the appearance of real form and individuality.

Your Vantine photographer knows how lighting effects can be best used. . . How easily they can reflect your personality.

Your Vantine photographer knows best how to secure the sharply etched photograph your engraver desires of the important senior year. . . . The victories of the athletic teams. . . . The brilliance of social occasions. . . . The Prom . . . The plays . . . The debates . . . The expression of everyday life on the campus.

That personalized portraits by Vantine are important is attested to by the fact that over 300 schools and colleges repeatedly entrust their photographic work to Vantine.
